## ***Patented Technology. Professional Results.***

Tour Links greens are extremely durable, weather resistant, UV protected and color safe. These rugged panels weigh an average of only 7 lbs. each making them easy to ship or store. Best of all, they provide the feel of a real putting surface so when you practice on Tour Links, you see the results on the course. Build a green and leave it permanently or move it from one location to another. Tour Links makes it easy to practice whenever and wherever you want.

Patented underside grid provides solid surface with natural feel.

Patented floating cup ensures proper turf alignment in any weather condition.

Patented interlocking panels ensure easy assembly and level alignment.

## ***Installation is a snap.***

The installation of a professional quality putting green has never been this easy. Whether it's a do-it-yourself pre-packed green or custom dream green, every Tour Links putting green is designed with ease of installation in mind.

## ***Designer Links***

The consumer demanded it and Tour Links delivered. Now every golfer can own that built in professional looking putting green all the while knowing your investment is protected because it is Tour Links. The kits come complete with putting turf, fringe and panels all pre-cut for an easy installation indoors or out. These greens have been showcased around the world and are the crown jewel of the Tour Links pre-pack collection. The designer series is the industry's first professional quality DIY putting green system ready for installation in nearly any environment both indoors or out.. The customer does the site preparation and Tour Links does the rest.

# Designer Links

**15 x 17**

**18 x 23**

**20 x 32**

**28 x 28**

## ***Professional Links***

Built with the same patented system as the Standard Links Collection this series of larger greens comes standard with our Ultra Turf Nylon putting surface in sizes that have plenty of room for multiple players and will turn any yard or indoor space in to the envy of your foursome. This is an investment in your game that will pay off for years to come.

**14x14**  
13'6" x 13'6"  
Nylon Turf - 4 holes - 4 flags

**14x18**  
17'4" x 13'6"  
Nylon Turf - 5 holes - 5 flags

**14x20**  
19'3" x 13'6"  
Nylon Turf - 6 holes - 6 flags

## ***Standard Links***

This series of greens was designed with the average golfer in mind. The smaller footprints and economical pricing allows any golfer the advantage of practicing at home or in the office and master those tough shorter putts we all struggle with out on the course. Don't be fooled by the smaller sizes, these greens are the favorites of some of the top teaching professionals and golfers in the game.

## ***Standard Links***

**8x12**  
11'8" x 7'10"  
Club Turf - 3 holes - 3 flags

**12x12**  
15' x 8'4 1/2"  
Club Turf - 4 holes - 4 flags

# Training Aids

Available in 7 ft., 9 ft. and 13 ft. lengths, the TourLinks Training Aid is quickly becoming recognized as one of the best, all-in-one putting trainers ever developed. Years in development, the TourLinks Training Aid offers six separate devices to deliver quick, positive feedback to all aspects of your stroke. Follow the club path down the String Guide. Maintain squareness at impact while emphasizing acceleration with the Stroke Groover Block. Improve your alignment with the Ball Marking Tool. Learn proper head and body position by using the alignment Hash Mark. Create subtle breaks with the Contour Mats and learn to aim for the center cup with the Cup Reducing Ring. The Training Aid is suitable for left and right hand golfers. You can now practice multiple length putts and groove a stroke that will help you say goodbye to three putts forever!

All Training Aids include these accessories.
